

## Sheffield Inclusion Centre's 6 Week Case Study

"Our students are out of mainstream education for various reasons; they might suffer from anxiety or other mental health issues. Others simply just don't like school. But our objective is very clear: we want to get our students back into mainstream education."

**93%**

of students completed the programme

**43%**

increase in one student's attendance

**36%**

of students had 100% attendance

"The results have been incredible. Two of our students have recently informed us that they want to return to mainstream education!

With a virtual classroom, we're able to ensure our students receive classwork and homework regularly, and we can monitor their progress and give them the support they need, so that when the time comes, the transition back into the classroom goes smoothly."

Include. Engage. Achieve.

# THE GOLDEN RULES OF

Best Practice Guidelines

## Personalised Learning Pathways

Students follow a learning pathway, tailor-made to suit their learning needs.

These pathways are designed to match the class' scheme of work so that students don't fall behind their peers.

## Behaviour Repair Work

We offer behaviour repair work lessons for your students to follow when they have behaved inappropriately.

These lessons address everything Ofsted requires for behaviour work including bullying, verbal abuse, physical assault, persistent disruptive behaviour, sexual misconduct, damage, theft and racist abuse.

## Safeguarding Visits

Through the "EDClass Students" section of the dashboard you can view a list of scheduled, due and outstanding safeguarding visits.

There is an online editable safeguarding questionnaire to be completed by the staff member visiting the off-site student.

Through the student report you can view all previous visits and completed safeguarding questionnaires.

## **MANDATORY LESSONS**

All students added to EDLounge will need to complete the following mandatory lessons before they can continue with their learning pathway:

**BRITISH VALUES**

**SAFEGUARDING**

**E-SAFETY**

**PREVENT**

Upon completing these awareness courses, the students will receive a certificate of achievement.

## Reintegration Meetings

Through the "Student Report" area you can generate a printable inspection report, ideal for reintegration meetings.

In this report you can view what lessons your students have completed as well as their attendance and lesson performance.

## STUDENT ETIQUETTE

Students should say "Hello" and "Goodbye" to their tutor while using the virtual classroom, even if that is the only thing they say each session.
